

# Healthcare Management Senior Leaders Master's Degree Apprenticeship

# Are you ready to enhance your career in Healthcare? Do you have the ambition, passion and courage to make a difference at a senior level?

## MSc Global Healthcare Management

The Senior Leaders Master's Degree Apprenticeship with Coventry University could be for you. Whilst working you'll be given time to study for a Master's qualification which closely aligns to your day-to-day role. We will provide you with the practical skills to develop your career while helping you to understand the evolving needs of healthcare services in the UK, and around the world.

As a student with Coventry University you will be joining a network of national and international healthcare leaders and managers, and will benefit from our strategic partnership with the Institute of Healthcare Management. You will explore and apply your learning in an interactive way: blending cutting-edge technology with industry-leading teaching practice, whilst having access to the best facilities you require. Our staff are highly competent leaders and managers from a range of healthcare sectors, and continue to operate in healthcare at senior levels in the NHS and internationally.

## Cost and funding

Earn as you learn as the course fees are funded for by the Apprenticeships Levy at £18,000 for the entire programme. At Coventry University we are proud to say there are no hidden fees and you can access all our resources as if you were a full-time student. Your membership with the IHM is funded from the levy too for your period of study.

## Entry requirements

Participants must be employed into a role that attracts the Apprenticeships Levy. Please speak with your organisation to determine this.

Usually applicants will hold an Honours Degree at 2:2 or recognised equivalent, but we welcome participants with experience of healthcare and who wish to progress their careers.

## Overview of modules and teaching

To successfully complete the apprenticeship and gain your Master's qualification, you will undertake a range of modules with a variety of assessment methods including: presentations, group work, report writing and essays.

Not only do you gain a Master's level qualification with Coventry University but you will also benefit from a Level 7 Certificate in Strategic Leadership and a Level 7 Certificate in Professional Consulting; both from the Chartered Management Institute (CMI).

Furthermore, you'll gain Fellowship of the IHM on completion of the programme. Indicative modules you will undertake over two years include:

- Principles of Leadership and Management
- Leading in Complex Health Systems

- Policy, Politics and Transforming Practice
- Globalisation and Health
- Global Professional Development (CMI module)
- Transforming Healthcare Business Proposal
- Research Methodology, Design and Methods

Also, you can choose your own topic, fully supported by our expert staff, with our Independent Study module.

An additional benefit of attending Coventry University is access to our Healthcare Leadership and Management national and international field trips, alongside our range of current healthcare executives who support the delivery of the programme.

## Additional Information

You may start at a time that suits you and your employer, as we work very closely with your organisation to schedule a realistic and attainable timeline for you to complete your Master's and obtain valuable skills that can be applied immediately into your role.

If you feel anxious about studying at Master's level we have a comprehensive, approachable support system to guide you through every step.

We acknowledge that it can be daunting but at Coventry University we have the experience for you to fulfil your potential.

Please contact your manager or organisational development team to explore accessing the Apprenticeship Levy to support you with this programme.
